SPONSORED BUSINESS CONTENT

€1,500 (INCLUDES JOURNALIST & PHOTOGRAPHER FEES)

This form of Premium Sponsored Business Content is considered one of the most effective means of modern digital marketing. Through it, advertisers can reach an audience in a seamless way and without disrupting the flow of content reaching the end-user. Sponsored Business Content is essentially online content that is created for paid promotion, which does not use a traditional ad format such as a banner ad but includes editorial content such as an interview with a business professional, a case study or a product/event review.

THE PROCESS

The article will be written by one of our talented in-house journalists and then passed on to the client for approval. It is then in the hands of our digital marketing experts to make sure that the post stands out from the rest! Our team will ensure that the article is seen by as many people as possible, including via the running of a digital marketing campaign on Facebook. Additional exposure will also be given through WhosWho.mt's LinkedIn page through both posting and boosting. The fee is all-inclusive and covers all the different elements of the job from digital marketing to the assigned journalist as well as photography.

THE PROCESS

Once you send the text, our business writers will proofread your text and will apply any necessary tweaks to improve the overall feature. High-quality images must also be supplied with the text to give better context to the post. Once it's ready to go, our digital marketing specialists will apply all the necessary tools to ensure your news is seen by as many people as possible. Additional exposure will also be given through WhosWho.mt's social channels, such as Facebook and LinkedIn. Here we will post and also boost for you!
